HR EXCELLENCE IN RESEARCH

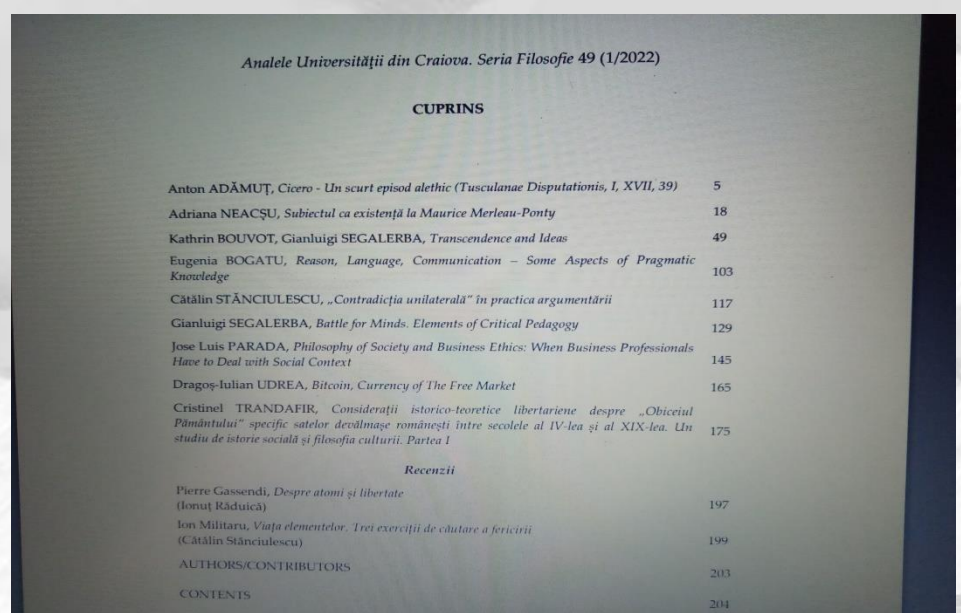

Reason, Language, Communication. Some Aspects of Pragmatic Knowledge

AUTHOR: Conf. univ. Eugenia Bogatu

APPLICATION FIELDS: Research projects. Monographs.

E

Abstract: Knowledge has a major role, both in the development of a person, but also of the whole society. Today's society is a society of knowledge. Knowledge cannot evolve separately from information. The quantity and quality of information largely depends on its processing by artificial intelligence. The involvement of knowledge in the field of artificial intelligence is not possible without critical thinking. A knowledge society is not perceived without the involvement of researchers. They are those who promote and develop scientific knowledge. This type of knowledge is found in all areas of activity of the society. Hence the social responsibility of the scientists in the scientific context of direct activity.

IMPLEMENTATION STAGE: Paper published in The Annals of the University of Craiova. Sery Philosophy, vol 49, no 1, 2022, pp. 103-116 – ERIH Plus Journal, Scopus etc
